**With at least  
99.97% protection,  
silicosis is on notice.**

Australian-made CleanSpace® Respirators meet and exceed the minimum requirements for respiratory protection with a P3 filter which means you are safeguarding the protection of your team from the danger of silica dust.

CleanSpace® Respirators are easy to put on (in under 10 seconds) and don't have heavy belts or hoses allowing complete freedom of movement.

So don't leave their health to chance and embrace the future of respiratory safety because with at least 99.97% protection, silicosis is truly on notice.

## 3M™ DBI-SALA® High Capacity Davit

Designed for manhole and confined space entry/retrieval applications. The Davit pivots for ease of rescue and has an adjustment for overhead clearance restrictions. The lower base adjusts to fit most standard entries. A range of bases and masts are available.

### Features and Benefits:

#### Fall Arrest Anchorage

Davits offer 4 x AS/NSZ 5532 type B anchor points

- 2 anchor points for direct connection with fall arrest PPE
- 2 guided cable lifelines from a 3M™ mounted SRL.

#### One Front and One Back Cable Lifeline Guide

In addition to being a fall arrest anchorage, the 2 guided cable lifelines serve as:

- Rescue line with a mounted 3M™ DBI-SALA® rescue winch or 3M™ SRL with built-in rescue winch
- Raising / lowering line for people or load with a mounted 3M™ DBI-SALA® man and loadriding digital winch.

#### Winch and SRL Options

- Winch and SRL can be mounted on the mast with appropriate bracket.
- Front or back mounting choice is possible to allow the most convenient positioning for the user, unlike some others systems that only allow the winch and SRL to be back mounted or allowing only one fixation to the mast.

#### Adjustable Reach and Height

- Selection of one of the 4 davit mast extension options allows the user to select the best height setting for the operating environment.
- Multiple pins position of the gusset arm and head allows the user to adjust the best reach and height needed for the application.
- Possibility of maximum height of anchorage, allowing use over most tanksedges and guardrails.

#### Base Options

- Fixed bases in galvanized steel or stainless steel are available to accommodate a variety of anchorage locations.
- One short reach and one long reach portable 3 piece base options allow full versatility of the systems.
- Maximum external width of long reach 3 piece base is 2.61 m, allowing the surround of very large confined space openings.

## 3M™ DBI-SALA® ExoFit NEX™ Full-Body Harnesses

The ultimate full-body comfort harnesses.

ExoFit NEX™ harnesses are the most advanced harnesses in the industry. They're the culmination of our experience with ExoFit™ and ExoFit™ XP, ongoing research and the incorporation of new materials and innovative features.

### Features and Benefits:

- **Stand-Up Dorsal D-ring**  
Patented spring-loaded design automatically stands up, ensuring fast, easy and safe connections to your fall arrest system.
- **Covered Labels and RFID equipped**  
A press stud cover protects harness labels.
- **Impact Indicator**  
Rip-stitch indicators allow you to inspect the harness at a glance, for prior damaging impact loads.
- **Vertical torso adjuster**  
Simple and fast adjustments that eliminate loose ends and lock into place, preventing slippage.
- **Lightweight Aluminum D-rings**  
Extremely lightweight alloy commonly used in military and aerospace offers a higher level of security and comfort.
- **Integrated Suspension Relief Straps**  
Provide an adjustable, continuous loop for post fall, offering suspension relief.
- **Reflective Material**  
For greater visibility in dark and dangerous environments, reflective material is integrated on legs, chest, shoulders and back.
- **Ultra-Soft Edging**  
Moves with you - doesn't rub or chafe.
- **Hybrid Comfort Padding**  
Lightweight, moisture wicking, and breathable padding won't move or slip, keeping the wearer comfortable at all times.
- **Lanyard Keepers**  
Easy holstered snap hooks breakaway to avoid trip hazard.
- **Built-In Carrying Pocket**  
Conveniently holds and protects a mobile phone, camera, or other items.
- **Rigid Hip Padding Loops**  
Prevents equipment pouches from sagging and reduces abrasion in vulnerable areas
- **Web-Locking Quick-Connect Buckles**  
Lightweight one-handed use with memory-fit weblock ensures fast, non-slipping connections.

**BONUS**  
Harness storage back pack with every ExoFit NEX™ harness

Launching globally, available as part of the  
MSA Connected Work Platform

**ALTAIR io4 Smart Wearable Gas Detector**

The ALTAIR io 4 Gas Detection Wearable is part of the MSA Connected Work Platform, which connects workers, worksites, and workflows so that you can create an adaptable, proactive safety program that simplifies safety, reduces risk, and boosts productivity.

With fully integrated secure CAT-M LTE cellular connectivity right out-of-the-box, the ALTAIR io 4 device comes with automatic connection to MSA Grid cloud-based software.

**No complicated IT setup or intervention required.**

ALTAIR io 4 Wearable Gas Detection is available through the MSA+ subscription program, which gives you access to powerful cloud-based solutions enabling faster implementation, increased warranty coverage, and automatic software and firmware upgrades—with minimal capital expense.

**Over-The-Air (OTA) Updates**

The ALTAIR io 4 device gets better with time through OTA software updates delivered to your fleet with complete control and unmatched ease. Simply release the update from the Grid software and your devices will update safely the next time they charge.

**Digital Device Assignment**

With MSA id RFID tagging system, digitally assigning ALTAIR io 4 devices is as simple as a “tap,” and returning them happens with just a “click” when they are returned to the charger.

**Automatic Bump & Calibration**

When in the Dock, the ALTAIR io 4 Gas Detection Wearable knows when it needs a bump test or calibration to be compliant and immediately runs the appropriate test.

**Rugged, Durable Design & Industry-Leading XCell® Sensors**

Military-grade durability. IP68 rating. Survives a 25-foot (7.6 m) drop test. Breakthrough sensor design enables faster response and shorter span calibrations. Rated to last for years.

Biosecurity is of utmost importance on farms and properties in Australia to prevent the spread of diseases, pests, and contaminants.

Signage plays a crucial role in promoting biosecurity measures and raising awareness among workers, visitors, and stakeholders. Clear and informative signage helps communicate biosecurity protocols, such as handwashing, footwear hygiene, and restricted access areas.

By prominently displaying biosecurity signage, farms and properties can educate and remind individuals about the necessary precautions to minimize the risk of introducing or spreading harmful agents.

Effective signage acts as a visual guide, contributing to the overall biosecurity strategy and safeguarding the health and productivity of agricultural environments.
