

BLACK
LEATHER

#982

The chemical-resistant #982 is ideal for aluminium refineries or industries where there is potential for acid exposure.

- Black chemical resistant leather upper with TPU bump cap and TPU heel guard
- Schoeller® Keprotec® fabric and Kevlar® stitching - chemical and abrasion resistant
- Heavy duty YKK Vislon® zip with self-clearing gusset behind the zip to prevent chemical penetration
- Full bellows tongue externally attached to reduce splash access potential
- Low density shock absorbing polyurethane midsole with anti-bacterial agent
- Rubber outsole designed to specifically increase slip resistance in varied environments
 - Oil, acid and organic fat resistant
 - Outsole heat resistant to 300°C
- Removable Comfort Arch footbed with XRD® Extreme Impact Protection forepart insert for greater impact absorption and comfort. Footbed is anti-bacterial, washable and breathable
- SPS Max - XRD® Technology in the heel and forepart strike zones for increased impact protection
- Thermal regulating Bamboo lining
- Electrical hazard resistance
- Broad fitting impact resistant steel toe cap
